ROBBERY AND MURDER MADE THE BUSINESS OF BOLD MAN

FOUL MURDERER OPERATED IN OHIO

Man Who Killed Indianapolis
Tailor Eludes Police.

HELD UP MERCHANTS IN HOTEL

Said to Have Invited Victims to His
Room and Boldly Attacked and Rob-
bed Them of Their Valuables—Po-
lice of All Large Cities Asked to
Watch For the Murderer—Man's
Boldness Allays Suspicion.

Indianapolis, Ind., Sept. 24.—Con-
vinced that the young man who brut-
ally murdered and robbed Joseph
Schlansky, a clothing merchant, in a
hotel here, is the same person who
has committed similar crimes in sev-
eral eastern and middle western cit-
ies, the local police department asked
officers in every large city east of the
Mississippi river to watch for the
slayer. They believe the murderer is
Joseph Ellis, aged about 21, of Rich-
mond, Va.

Stickers on a suitcase carried by
Ellis showed that he recently had
been in New York, Boston, Cleveland,
Columbus, Toledo and Cincinnati.
Investigation of the murder of
Schlansky showed that it had been
coolly planned and the escape so cunningly
carried out as to throw off sus-
picion temporarily. A strong cord
had been tied about the tailor's throat
and he had been shot in the head.
After murdering the merchant the
man discarded a collar spotted with
blood, walked to a nearby store,
where he purchased another, and then
returning to the lobby of the hotel,
where his victim lay dead, remained
for an hour or more.

After having killed the merchant
the murderer washed his hands in the
lavatory, as the wash bowl there was
filled with bloody water. The mer-
chant's watch and about \$20 also were
missing. Later the slayer returned to
his room, and then, going to the
hotel depot, procured his suitcase
from the checkroom, and is believed
to have caught an eastbound train.

The slayer left two notes, in which
he said he had started to rob the mer-
chant and then killed him.
From information gathered by the
police, Ellis, known also as Brokaw
and Robert Duncan, committed sim-
ilar crimes in Louisville last week and
left there Saturday for Indianapolis.
Previous to the Louisville crime the
man is supposed to have attacked
clothing merchants in Cleveland, To-
ledo, Philadelphia and Pittsburgh.

In each town where the man oper-
ated his scheme was the same. He
would register at a hotel under an as-
sumed name, call on either one of the
smaller clothing merchants or a sec-
ond-hand dealer and, explaining that
he had some samples he must get out
of his possession at once, ask the
dealer to go to his room. Once in the
man's room, the procedure nearly al-
ways was the same. The victim either
was struck down or forced at the
point of a revolver to submit to being
bound and gagged, then his valuables
were stolen, and the robber, leaving
the merchant to be discovered by hotel
employees, departed.

TOBACCO KILLED

Dayton, O., Sept. 24.—Frost occa-
sioned an estimated loss of more than
\$100,000 on the tobacco crop in Mont-
gomery county. The loss is said to
be total in the lower valleys. A con-
servative estimate of the loss through-
out the entire Miami valley is placed
at \$500,000.

NEW YORK REPUBLICANS CHANGE PARTY RULES

Opposed to Recall of Judges and
Judicial Decisions.

New York, Sept. 24.—The Republi-
can state convention, called to nomi-
nate candidates for chief judge and
associate judge of the court of ap-
peals, adopted resolutions and took
action on party questions of nation-
wide interest, including the matter of
representation in national conven-
tions. The platform adopted opens
with a plank against the recall of
judges and judicial decisions. It says:
"The Republican party condemns all
proposals to intimidate judges in the
discharge of their duty by threats of
a recall in case of an unpopular de-
cision and all proposals to nullify the
decisions of the courts at the will of
a temporary popular authority through
the recall of decisions."

State issues are dealt with at
length, and in this connection the
platform condemns the activities of
Tammany Hall.
Reverting to national issues, faith
is reaffirmed in the "Republican prin-
ciples of protection to American
workmen, American industries and
the American farmer." Belief is ex-
pressed that Democratic tariff reform
will prove a failure. "Regarding cur-
rency legislation, the platform adds:
"We denounce the Democratic bank-
ing and currency bill as menacing the
business interests of the country and
as inimical to the interests of the
whole people."

A resolution was adopted declaring
in favor of changing the party rules
so that each state may determine its
method of choosing delegates to the
national convention, and so that
states which give the big Republican
pluralities shall have proportionately
large power in selecting candidates
for president.

The convention wound up its labors
by the nomination of William E. Wer-
ner of Rochester, associate judge of
the court of appeals, for chief judge,
and Frank Hiscock of Syracuse for as-
sociate judge of the court of appeals.

DROWNED IN PUDDLE

Cleveland, O., Sept. 24.—A man
about 30 years of age, whose name,
from a card found in his pockets, is
believed to be Theodore Boardman,
was found dead in a wagon shed at
the rear of an electric depot at Char-
grin Falls. The coroner examined the
body and said that the man probably
had tumbled headfirst into a mud
puddle and drowned.

"I Should Worry," Says Sulzer's Press Agent, Garrison, Jailed.

Photo copyright, 1913, by American Press Association.

James C. Garrison, chief press agent for Governor William Sulzer of New
York, whose impeachment trial attracted nation wide interest when it started
on Thursday, Sept. 18, was jailed for charging that four members of the
assembly had accepted bribes for impeaching Governor Sulzer. Mr. Gar-
rison, who is a newspaper man, drifted into Albany, N. Y., last October and
soon became attached to the Sulzer for es. He proved an indefatigable work-
er, and Mr. Sulzer took an especial liking to him. Garrison refused to appear
before the judiciary committee when the governor was under fire and was ad-
judged in contempt. He was turned over to the sheriff and jailed without
bail. Garrison is shown here with his keeper. "I should worry?" was his only
comment.

English Capitalists Offer Mexican
Government a Heavy Loan.

Mexico City, Sept. 24.—General
Blauquet denied that General Felix
Diaz had been recalled by Provisional
President Huerta. He said that Gen-
eral Diaz will remain in Paris for the
present and may go to Japan later.
The private secretary to the minister
of finance said that English capital-
ists had cabled to President Huerta
offering to the government a loan of
£16,000,000 and to take up all the
bonds of the 200,000,000 pesos foreign
loan which have not been subscribed.
The rebel force which has been at-
tacking Tezcutlan was routed, more
than 100 being killed, according to a
report issued by the government. The
federalists, it is stated, captured all the
rebel artillery and took many pris-
oners.

MURPHY CLEARS NAME OF WOMAN

MRS. MERRIAM ON STAND

Denies the Charges of Cruelty Made
by Her Husband.

San Francisco, Sept. 24.—Mrs. Be-
sie Merriam occupied the stand in her
own defense against the charges of
cruelty made by her husband, Cap-
tain Henry C. Merriam, in his divorce
trial. She denied she intended to
shoot her husband when she took out
his pistol, but intended to end her
own life because of her unhappiness.
Major Murphy, who traveled 7,000
miles to defend Mrs. Merriam, told a
straightforward story of his relations
with her. He declared solemnly that
he was never alone for a moment with
Mrs. Merriam, and that even when
he took short trips with her, friends
accompanied them. He said the ex-
treme care he took to prevent any ap-
pearance of wrongdoing made the
scandal all the more inexplicable.

New York, Sept. 24.—Patrick A.
Ford died of pneumonia at his home
in Brooklyn, after an illness of four
days. He was the founder and for 43
years the editor of the Irish World.
Mr. Ford was known on both sides of
the Atlantic as one of the foremost
champions of the Irish cause. His
name was a household word wherever
there are representatives of the Irish
race. In England he has been regard-
ed for a generation and more as the
personification of Irish opposition to
English rule.

AFTER PICTURE TRUST

Chicago, Sept. 24.—Federal officials
were asked to investigate an allega-
tion that the Motion Picture Exhib-
itors' League of America is violating
the anti-trust law. The complaint was
made by Adolph B. Weiner, a lawyer.
The main grievance is that the 5-cent
theaters are not allowed to exhibit
more than three reels, under penalty
of having their supplies cut off.

HARD BATTLE BEING WAGED IN MOUTHS OF ENEMIES' GUNS

ATTACK ARTICLES OF IMPEACHMENT

Sulzer's Attorneys Want Certain
Accusations Quashed.

VITAL POINT UP TO THE COURT

Counsel in the Proceedings at Albany
Engage in an Ardent and Exhaus-
tive Debate—Schiff To Be First
Witness if the Court Overrules Sul-
zer's Contention—Developments of
the Day.

Albany, N. Y., Sept. 24.—Unless the
impeachment court sustains the im-
passe of William Sulzer's im-
passioned defenders that he can not be
tried for alleged offenses that took
place before he was governor, Jacob
H. Schiff of New York will take the
stand late today as the first witness
for the prosecution. He will testify
that he gave Mr. Sulzer on Oct. 14,
1912, a campaign check for \$2,500,
which the candidate did not mention
in his sworn statement.

As to whether or not the court will
vote to quash the most important ac-
cusations of the impeachment man-
agers by striking out the three ar-
ticles relating to campaign money and
falsifying a campaign statement, as
demanded by Governor Sulzer's law-
yer, no one can predict. But it may
be said that the result is more uncer-
tain than was that of the constitu-
tional conflict as to the validity of
the impeachment, which the court
has decided against Mr. Sulzer.

When the court reconvened today
Austen G. Fox of New York started
his argument for the elimination of
impeachment articles 1, 2 and 6. This
will end the ardent and exhaustive
debate. Then the court will take a
vote, preceded by what promises to
be at least an hour of discussion.

If the articles objected to by Gov-
ernor Sulzer are not expunged by this
vote, Eugene Lamb Richards will open
the real trial with a speech for the
prosecution. Before the first witness
as to Governor Sulzer's "high crimes
and misdemeanors" can be heard
there must first appear formal proof,
demanded by the supreme court rule
which governs this high court, that
the charges were made in proper
form.

Secretary of State Mitchell May
will be called for formal acknowl-
edgment that Mr. Sulzer was nominated
and elected and swore to a statement
of his campaign receipts and expendi-
tures.

Alfred E. Smith, speaker of the as-
sembly, will swear that the impeach-
ment articles were adopted by the
lower house.

Robert F. Wagner, president pro
tem. of the senate, will attest that the
articles were presented to him and
Patrick E. McCabe, clerk of the sen-
ate.

BRYAN AROUSED

Washington, Sept. 24.—Secretary of
State Bryan indicated that he is
sorely of inquiries regarding his per-
sonal affairs arising out of his round
of the Chautauqua circuit this
summer and the criticism that it brought
forth. He issued another statement
in which he expressed the opinion
that certain newspapers felt more
curiosity in his private affairs than
does the general public. Mr. Bryan
denied the story that he was educat-
ing boys in Japan.

Life.**

A horrible tragedy was enacted at Octa late Tuesday evening when Geo. M. Wood, caretaker of the Milledgeville cemetery, tried to murder his wife by shooting her with a shot gun, and then turning the gun upon himself he ended his life almost instantly by sending a charge of shot crashing into his chest.

The tragedy occurred at the Wood home in Octa shortly before 6 o'clock, and in the presence of part of the Wood children. The trouble started in the house and ended in the rear of the residence where the infuriated husband shot his wife in the back as she ran and then killed himself, the entire trouble taking place in a half minute's time.

As a result of the double crime the

body of Wood lies in the ruined home awaiting burial, and the seriously wounded wife lies in the Fayette hospital with good chances of recovery, although her left side, shoulder, back of her head and neck are perforated with scores of the little leaden pellets which cannot be removed.

The Wood family has resided in Octa for some 14 years, and the two principals in the tragedy have always held the respect of a wide circle of friends, who were stunned at the awful crime.

Previous to the trouble the domestic affairs had apparently been running along smoothly at the Wood home. The husband had been in the house all day and a few moments before the tragedy neighbors heard loud talk followed by the screams of the wife and children and the hoarse cries of the maddened husband and father.

It was the opening of the tragedy, when Wood seized a single barrel shot gun and tried to kill his wife in the house. Perl, a 15-year-old son, saved his mother's life by seizing the weapon and turning the charge aside. The gun was wrestled from the man's hands and quickly taken out of his reach.

Being thwarted in his attempt at murder, Wood seized a couch shell which was used for a weight to prevent the kitchen door from closing. He hurled the heavy shell at his wife and it fell with crushing force upon her forehead over the left eye, laying the flesh open to the bone and inflicting a wound three inches in length. She reeled and fell, but quickly scrambled to her feet when she beheld her husband reaching for a second single barrel shot gun which was standing nearby.

After scrambling to her feet and almost blinded with blood which poured from the wound in her forehead, she staggered out the rear door into an alley and started to flee for her life.

Securing the weapon he sought, Wood leaped through the kitchen and out after his fleeing wife, bringing the hammer of the gun back for action as he ran. When he reached the back yard and beheld his wife fleeing down the alley he raised the shot gun, took deliberate aim and fired while his wife was some 30 feet away. She fell to the ground, screaming for help.

Thinking he had killed her, Wood then reloaded the gun and before neighbors could interfere he turned the muzzle of the weapon and placing it against his breast, pulled the trigger. The load tore a hole in his chest more than one inch in diameter and caused almost instant death.

Neighbors then rushed in and carried both in the house, and telephoned to Milledgeville for a physician. Owing to the woman's condition she was ordered brought to the Fayette hospital for treatment, and arrived here later in the night.

Coroner L. P. Howell was summoned and reached Octa a few hours after the crime had been committed. His verdict has not yet been rendered, as a further investigation will be made of the affair.

Wood has lived in western Fayette the most of his life. He was 44 years of age and his wife, who was Miss Nettie Bundy, is 38 years of age. A family of six children, ranging in age from 10 to 20 years, is left fatherless. The children are Elmer, Homer, Belma, Perl, Fred and Bernice.

About a year ago Wood suffered a stroke of paralysis and since that time has, according to his wife, been insanely jealous of her, and recently has been acting strangely.

This afternoon the injured woman is resting easy with all hopes for a speedy recovery.

9,000,000 FOOT GAS WELL TAPPED

Adelphi and community are considerably wrought up over the drilling of a 9,000,000 foot gas well some three miles east of that town, which is located near the Pickaway-Hocking county line.

The big gasser was put down on the Nelson Karshner farm just over the line in Hocking county, and the gas was tapped at 2,000 feet, proving to be a gusher, as there was some oil in the well.

As soon as the word became noised about that the gasser had been opened, gas and oil men from far and near rushed into the territory and now every foot of available land has been leased, and many wells will be put down without delay.

The new well is the property of the Logan Gas & Fuel company, and is the largest flow of gas struck in many years. The work of getting the well under control has been exceedingly difficult.

LOGGERHEAD TURTLE WEIGHS 80 POUNDS

One of the largest turtles that was ever received in this city came in by express Tuesday evening direct from Baltimore, making the long journey with a small tag tied to one leg, and causing the express men to keep at a respectful distance to prevent a finger from being snapped off.

The huge fellow weighed 80 lbs., and was one of the most toothsome kinds of sea turtles known. It was shipped to Tom Easton who now has it prepared for patrons of his restaurant.

Tuesday night when Tom commenced the work of preparing the big fellow for soup and a fry, he lifted him upon the block and when he attempted to kill the turtle offered such strenuous objection that the table was overturned, and it required two men to do the work. The huge turtle tried to snap Tom and his assistant, bringing its sharp jaws together with a noise that could be heard half a block away.

SALESMAN ARRESTED FOR EMBEZZLEMENT

N. E. Perry, of South Carolina, who has been representing a Zanesville drug firm in Central Ohio for the past fifteen months, was arrested at Duvall, Pickaway county Monday, and taken to Circleville and later to Zanesville, to answer to a charge of embezzlement.

The prisoner is alleged to have collected and pocketed some \$500 belonging to the firm he represented.

GOLD IN CHICK'S GIZZARD.

Pullet Promptly Pays For Itself When Cut to Fry.

Goldfield, Nev.—This place continues to produce freak hens, the latest being a pullet with a gold bearing gizzard. It was owned by Mrs. R. L. Morgan, and when it reached the right size for frying Mrs. Morgan very promptly had her husband cut off the fowl's head.

When she sliced the chicken's gizzard open Mrs. Morgan was astonished to see a piece of yellow material, which on closer inspection turned out to be a gold nugget the size of a bean and worth \$250.

A short time ago a Goldfield hen laid an egg the shell of which was incrustated with gold, and following this two of the largest eggs ever produced by a hen were presented to their owners by two Goldfield fowls.

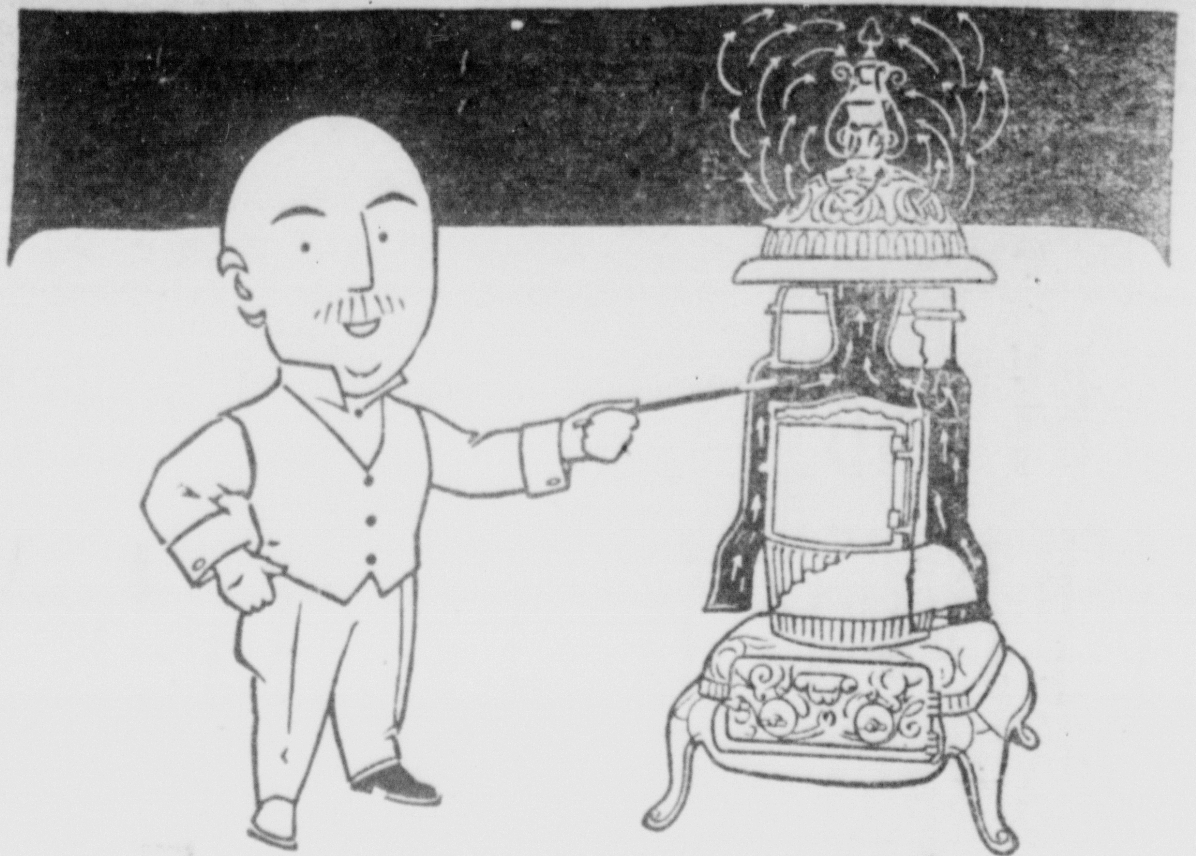

CHURCH BAN ON SLIT SKIRT.

New Britain Priest Will Not Give Communion to Wearer.

New Britain, Conn.—The Rev. H. T. Walsh, whose utterances from the pulpit of the Church of Our Lady of Mercy have attracted state wide notice, has delivered a fiery opinion of present day gowns, and he has announced that he will not give communion to any woman who approaches the altar railing in a slashed skirt or in diaphanous garb. Moreover, he will not receive at his parochial residence any woman who wears such gowns.

The denunciation of gowns was made in the course of a sermon. The extreme fashions were described by the priest as "monstrosities," and he said men were disgusted with them.

Have you a "little furnace" in your stove?

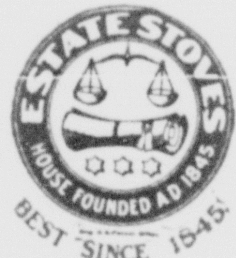

YES!—if it's an Estate Hot Storm. Otherwise—no! For the wonderful little furnace is an exclusive and patented feature of the Estate Hot Storm's construction.

While the stove is working overtime, radiating its heat upward, and downward, and every which way, the little furnace inside is shooting an enormous volume of pure hot air into the room.

Hardly seems possible for a stove to do so much work as the

Estate Hot Storm

does—and to do it so nicely, without any smoke or gas getting into the room, without any puffing or exploding, without requiring any attention whatever except to put in some coal every day or two.

Make up your mind to "Own an Estate" this season, and make it an Estate Hot Storm—"the stove with a little furnace in it." See it here at our store.

B. & O. KILLS AN UNKNOWN MAN

A well dressed stranger, a man of middle age, was run down and instantly killed in Chillicothe Tuesday night by a B. & O. passenger train.

The man was caught at a point near Paint street and both legs and one arm were cut off and his head crushed in, besides other injuries that would have proven fatal had he escaped being so horribly mangled.

GRASSHOPPERS EAT ROPE.

It Breaks, and Workman Falls From Scaffold.

Warrensburg, Mo.—A swarm of grasshoppers that alighted on a rope supporting a scaffold and cut through the strands nearly caused the death of a workman.

Daniel Laughman, a carpenter, seventy, was working on the scaffold thirty feet from the ground while building a silo on the farm of Jesse Mohler. After the grasshoppers had feasted on the corn near the silo they gradually collected on the rope supporting the scaffold, and suddenly one end lurched downward, and Laughman was severely bruised by his fall.

Surgeon Will Graft It on the Leg of Miss Tovar.

Kansas City, Mo.—Miss Hermila Tovar, fifteen, daughter of a wealthy merchant of Lima, Peru, is in a critical condition at St. Joseph's hospital from injuries received in an accident on a roller coaster at Electric park. Her brother, Daniel Tovar, twenty, is in an adjoining room suffering from severe bruises about the head and shoulders.

The muscles from the foot of a rabbit will be grafted into the girl's leg to take the place of those torn off in the accident.

Incomplete registration figures of the number of students entering Ohio State university for the first semester indicates that the total will be greatest in the history of the institution. With an increase of 419 over the same date of last year, the total has reached 3413, with more expected to enroll later.

The number of students entering the College of Agriculture has reached 1151, 187 more than took work in this department a year ago, which is a record registration. A number of foreign students and men from other colleges are found among those enrolled in the agricultural courses.

FARMER TRIES TO END HIS LIFE

John Williams, residing ten miles north of this city on the Prairie pike, tried to end his life Tuesday by swallowing a quantity of blue vitriol or some kindred poison, but the prompt work of a physician counteracted the effects of the poison, and the man will probably get well.

Williams is a farmer residing with his father, and is about 25 years of age. He is said to be the man who went to the residence of Henry Valentine, colored, of Bloomingburg, and calling him to the door under cover of darkness, shot the man through the shoulder and fled.

It is claimed that Williams tried to end his life because his wife has not been living with him, but is now said to be located near Mt. Sterling. She is well known in this city and Bloomingburg.

MISS WILSON INTERCEDES.

Has a Postoffice Rule Waived to Please a Little Blind Girl.

Washington. The little blind daughter of Mail Carrier Sherry at Mandale, O., may ride with her father over his rural free delivery route, although a postoffice regulation expressly forbids it, because Miss Jessie Wilson, the president's second daughter, interceded for the child and got Postmaster General Burleson to issue a special permit.

Jessie Columbia, thirteen years old, of Cleveland, spent her vacation this year with her grandfather, the postmaster at Mandale and saw the blind girl's plight. She wrote Miss Wilson of how little Miss Sherry longed to ride on her father's mail cart, and an appeal to the postmaster general was followed by an order waiving in this case the regulation which forbids that any one but a carrier shall ride on a mail wagon.

What Ohio Club Women Are Doing

In Chillicothe in the third week of October will be given an opportunity for the public to learn from the fountain sources what Ohio club women are doing.

The annual meeting of the Ohio Federation of Women's Clubs, held so close to our own city, offers unusual opportunities for local club women. Club activities will soon be resumed and will draw added inspiration from the splendid body of Ohio club women which will assemble in Chillicothe.

The day of the club merely for personal benefit is past. The General Federation of Women's clubs is now one of the recognized factors in the great humanitarian movement which is sweeping over the country and is so greatly changing conditions under which people live and work.

Club women are especially interested in the homes and lives of women and little children. They are finding ways and means to make these homes more beautiful and comfortable; the lives happier; the interests wider. The record of the practical things accomplished last year in the various clubs of the state is a splendid one and the coming year promises to be one of great achievement through the efforts of noble, conscientious women who unselfishly give of their time and means for the moral, social and civic improvement of their respective communities.

More than a million women of intelligence and feeling have united in an effort to do things—to raise the standards of living. Women are awakening, as never before, to their individual power and responsibility and the club women are leaders in the work of helping those less fortunate than themselves.

The four days of the Federation at Chillicothe will bring together the women of Ohio's larger cities, with their tremendous social and civic problems, the women of the smaller cities not so weighted down with the amount of work to be done, but still with plenty awaiting the willing hand, and the women of the rural districts, no less eager for enlarged usefulness.

The fraternal spirit is growing among women and the Federation of 1913 will prove this beyond a doubt.

Some of the women who have done things which have heralded their names all over the United States will be at the Federation. None have contributed more to the solving of vexed problems than Miss Jane Adams, of Hull House, who will be one of the speakers.

How to live up to the greatness of one's opportunity, to the full measure of women's sphere, will be the keynote of the Federation rather than the exploiting of brilliancy and wit.

Nevertheless neither brilliancy nor wit will be lacking among this assemblage of Ohio's bright women.

Teach People That the Aeroplane Is Safe

By CLAUDE GRAHAME WHITE,
English Aviator

ONE DUTY OF PARAMOUNT IMPORTANCE LIES BEFORE THE AVIATION DUTY, AND IT IS THIS: STRENUOUS EFFORTS SHOULD BE MADE TO IMPRESS THE GENERAL PUBLIC WITH THE FACT THAT FLYING WHEN THE WEATHER IS SUITABLE, THE MACHINE WELL BUILT AND THE PILOT EXPERIENCED HAS BECOME A SAFE AND DELIGHTFUL PASTIME.

There is without doubt a mountain of sheer prejudice which needs still to be moved, and that such an obstacle exists is not the fault of the mass of the people.

Concerning the real risks of aviation, they have been persistently misinformed. An aeroplane accident represents A NEW WAY BY WHICH A MAN MAY KILL HIMSELF, and novelties in the way of death have become infrequent; hence it is inevitable that reports of such disasters should figure prominently in the daily press.

Aeroplanes today are scientifically constructed, air worthy craft, and the men who handle them have SKILL AND KNOWLEDGE at their command, but the delusion which is so prevalent as to the inherent danger of navigating the air is the stumbling block to all development save that of the employment of machines as engines of war.

We who fly should strive above all things to GIVE THE PUBLIC CONFIDENCE. The possibilities and pleasures of aerial touring must for one thing be definitely demonstrated. With latest type machines which have covered in bodies, wind screens and cushioned seats, air travel is being made PERFECTLY COMFORTABLE. What needs to be done is to reveal in a way all people can understand the novelty and charm of, say, the WEEK END TRIP BY AEROPLANE.

LAND OF BEGINNING AGAIN.

I wish that there were some wonderful place
Called the Land of Beginning Again,
Where all our mistakes and all our heartaches
And all of our poor, selfish grief
Could be dropped, like a shabby old coat, at the door,
And never put on again.

I wish we could come on it all unaware,
Like the hunter who finds a lost trail;
And I wish that the one whom our blindness had done
The greatest injustice of all
Could be at the gates, like an old friend that waits
For the comrades he's gladdest to hail.
We would find all the things we intended to do
But forgot, and remembered, too late,
Little praises unspoken, little promises broken,
And all the thousand and one
Little duties neglected, that might have perfected
The day for one less fortunate.

It wouldn't be possible not to be kind
In the Land of Beginning Again;
And the ones we misjudged and the ones whom we grudged
Their moments of victory here
Would find in the grasp of our loving handclasp
More than penitent lips could explain
For what had been hardest we'd know had been best,
And what had been loss would be gain;
For there isn't a sting that will not take wing
When we've faced it and laughed it away;
And I think that the laughter is most what we're after
In the Land of Beginning Again.

So I wish that there were some wonderful place
Called the Land of Beginning Again,
Where all our mistakes and all our heartaches
And all of our poor, selfish grief
Could be dropped, like a shabby old coat, at the door,
And never put on again.

INTERESTING BITS OF NEWS

(By John E. M. Kerr.)

President Wilson viewed vaudeville the other night from a balcony seat. He slipped quietly into the theater and was not recognized during the performance. Leaving he walked quietly back to the White House, while a crowd waited around the presidential auto in front. On a previous night the president did not enjoy being gazed at as he sat in a box and as he very much enjoys vaudeville, turned to the way of the common citizen to view it. Vice President Marshall occupied a stage box and did not know the president was in the house.

One of the Cleveland National Forest's finest pine groves and a portion of the water-shed from which Redlands, Riverside and San Bernardino citrus fruit growers obtain their irrigation supplies was destroyed by a great forest fire last week.

Realty is assessed in New York city at more than eight billion dollars. This is an increase over last year of one hundred and fifty million dollars. The bulk of the increase comes from the new hotels and office buildings erected in the West Side in the neighborhood of 47th street. The increased assessment enlarges the city's borrowing capacity by \$15,000,000.

Baedeker's series of guide books, which are now 80 in number, covers a wide range of countries. This year new editions have been published of those of Switzerland (the 25), northern Germany, northern Italy, Paris, Palestine and Spain. It is also announced that the guide to Russia which has reached its 3rd edition in French and its 7th in German, is shortly to be issued in English.

In a short 10 years a desert waste around Nanatchee, Wash., has been reclaimed. Valueless land has been converted into what is said to be the highest priced acreage on earth. Some of the apple orchards of the Wanatchee valley cannot be purchased for \$5000 per acre. They yield more than 10 per cent return on that valuation and a crop failure is unknown. The valley has a family on an average of every 10 acres and this year over 7000 car loads of fruit are being shipped. More than one-half the growers belong to the Fruit Growers' Association and by arrangements with eastern wholesalers the association owns the fruit until the consumer pays for it, the retailer being compelled to sell for only 20 per cent profit and the system has eliminated the middleman.

In order that they may be familiar with the intricacies of the ballot and effectively exercise the right of suffrage extended to them by the Illinois legislature, many women's clubs of that state have organized schools of politics to receive instructions from competent persons.

A company has recently been formed at Venice, Italy, to place a hundred motor boats on the canals and lagoons of the city. This will undoubtedly mean the disappearance from Venetian waters of the picturesque gondola and condoler.

SELLS-FLOTO

Berni Giant Serenadum.

Even if you do not care to visit the performance of the Sells-Floto circus when it comes here, on Saturday, September 27, it is suggested by its management that you go down to the circus lot and listen to Berni's Giant Serenadum, which will give continuous music during the afternoon and evening.

This is the largest musical instrument that was ever made portable so that it could be carried on wheels. It was built at a cost of \$20,000 and rivals in excellence the great organs of Salt Lake or St. Peter's. Its repertoire includes all the popular selections, operatic gems and classic renditions. You will find it near the main entrance of the big tent. The concert is free to all those who care to enjoy it.

Added to this, you might spend a profitable hour examining the mechanism of the huge wagons which convey the circus paraphernalia from town to town. Ask some of the attendants to show you Curtis' Fool-proof Wagon—it will demonstrate to you how modern ingenuity protects the laboring man against his own carelessness. After that, you might take a look at the Sells-Floto horses. They are considered the best of their kind.

The price of admission this year is still 25 cents. The seating capacity of the circus has been increased until there are now seats for ten thousand people and there are three rings instead of two as formerly.

A GLIMPSE BACK THROUGH YEARS

(John E. M. Kerr.)

November 9, 1871.

Mr. J. B. Kirk has sold the Kirk House to Mr. F. G. Shaw, of Ripley, who took possession Monday. The price paid for the house, furniture and appurtenances was \$7000. The new proprietor has changed the name of the house to the Washington Hotel.

There are a number of boys about Washington who would benefit themselves and society generally if they would go to work at ten cents a day. They now do nothing, eat more than the law should allow and persist in being a general nuisance. Some one ought to drive them to the pound.

We saw a young lady, or something resembling one, going up the street the other day, looking very much like a crooked stick, covered with crinoline and corsets and a pack saddle, girted upon the hinder part of it. The way the pretty thing wriggled along was shocking, and could the killing little beauty have heard the gibes and jeers of observers as she jerked and flitted along, we feel assured that she would never be seen in that horrid costume again. The folly of fashion was never so fully demonstrated as it is in the present fast age of the world, and never was there a greater mistake made by mortal women than in supposing that a distorted figure, a Grecian bend, or any other affectation or ornament, adds to her beauty or makes her more fascinating to man.

MONDAY WILL RECORD FINAL CHAPTERS IN FIERCE FIGHT

FATE OF THAW UP TO FELKER

New Hampshire's Governor to
Render Ruling Monday.

JEROME MAKES STRONG APPEAL

Fugitive's Nemesis Quipped and
Taunted For Three Hours by Attor-
neys For the Defense—Reference
Made by the Former District Attor-
ney to Prediction That Thaw Money
Would Defeat the Ends of Justice.

Concord, N. H., Sept. 24.—Governor
Samuel D. Felker will not decide
whether to send Harry K. Thaw back
to Mattewan or to give him his lib-
erty in New Hampshire until next
Monday. That was the upshot of the
hearing delivered a few minutes after
William Travers Jerome had stood in
the senate chamber of the statehouse
and told the New Hampshire govern-
or why New York state has been
willing to spend money and time to
get Thaw back.

"From the very hour," Jerome said,
"that Stanford White lay dead on the
roof garden in the city of New York,
his life taken either by a murderer
or by a lunatic from that time to this
minute it has been said repeatedly
that in the end Thaw money would
defeat the ends of justice."

Thaw, whose head had fallen for-
ward on his chest, looked up at the
man who has kept him under lock
and key since the night Stanford
White was killed. His face was death-
ly pale. A strained smile hovered
about his lips. He turned to his moth-
er, Mrs. Mary Copley Thaw, who was
seated behind him. She stretched out
her hand and Thaw clasped it for an
instant. Jerome continued:

"So far it has not entirely accom-
plished this end, but wherever this
case has gone and whenever it has
rested it has left a trail of lamony,
disgrace, blith and scandal behind it
that has been absolutely appalling,
and the state of New York, sir, will
not permit its justice to be defeated
by the corrupt use of money if it can
prevent it. That is why the state of
New York wants a man back whom
it regards as a homicidal lunatic when
influenced by his insane delusion and
his vicious degeneracy. At other
times, a man criminal in his mind
intervals and dangerous in his insane
ones."

Jerome had been quipped and taun-
ted for three hours. In pretty quick
succession three lawyers for Thaw
had charged him with bad faith in
seeking Thaw's extradition on the
warrant charging conspiracy. Govern-
or William A. Stone of Evans Evans
had not troubled to make his words.
A. M. Chase, a white-haired dean of
the New Hampshire bar and for 12
years a justice of the state court of
appeals, had spoken. If anything
more plainly. To top the climax,
George Morris, another lawyer for
Thaw, had said without equivocation
that in his estimation Jerome had
been employed to trump up a charge
against Thaw and get him back to
New York by hook or crook.

Jerome did not hesitate to remark
that he is on the side of the inside
of Thaw's escape from Mattewan
and that the story when finally round-
ed up will involve names that will as-
tonish the general public. Having
tossed this surprise into the camp of
Thaw's lawyers, he went on to say
that "Roger Thompson, the chauffeur
who was arrested in Canada with
Thaw, had practically promised him
to turn state's evidence and tell all
he knew about the escape and pre-
ceding plot."

Governor Felker's decision was
postponed until Monday on request
of Thaw's counsel, who said that they
wanted until that time to file their
briefs. Meantime Thaw will be kept
at the Eagle hotel in the custody of
United States Marshal Nute. Mrs.
Thaw will stay with him.

OHIO HAPPENINGS

Fifteen Injured in Wreck.
East Liverpool, O., Sept. 24.—A
westbound interurban car on the Tri-
State electric line left the tracks on
a curve at Wellsville, O. Fifty pas-
sengers on board were thrown in all
directions. Fifteen were seriously in-
jured, but none of them may die. The
injured are in a hospital here. The
injured include Louis Stentz of Col-
umbus, Mrs. Emma Harrison of East
Liverpool, Pat Pasquall of Youngs-
town, Rev. M. J. Grable of New Salem
and Attorney G. V. Davis, wife and
daughter, of East Liverpool.

Attorney Thatcher Reinstated.
Columbus, O., Sept. 24.—The su-
preme court has restored the right to
practice law in Ohio to Charles A.
Thatcher, Toledo attorney, disbarred
four years ago for criticizing Toledo
judges and supreme court judges. The
legislature in 1911 by an act restored
Thatcher to practice, but the supreme
court held the act unconstitutional.
Thatcher was defeated for supreme
judge at the election last year.

Boy Burns to Death.
Cleveland, O., Sept. 24.—Frank
Murphy, 6, found a box of matches
while his mother, Mrs. Charles Mur-
phy, was at the grocery. He struck
one and when his mother returned he
was in flames. She put out the fire,
but he was dead before a doctor could

FIFTH NUMBER OF THE WASHINGTON LECTURE COURSE

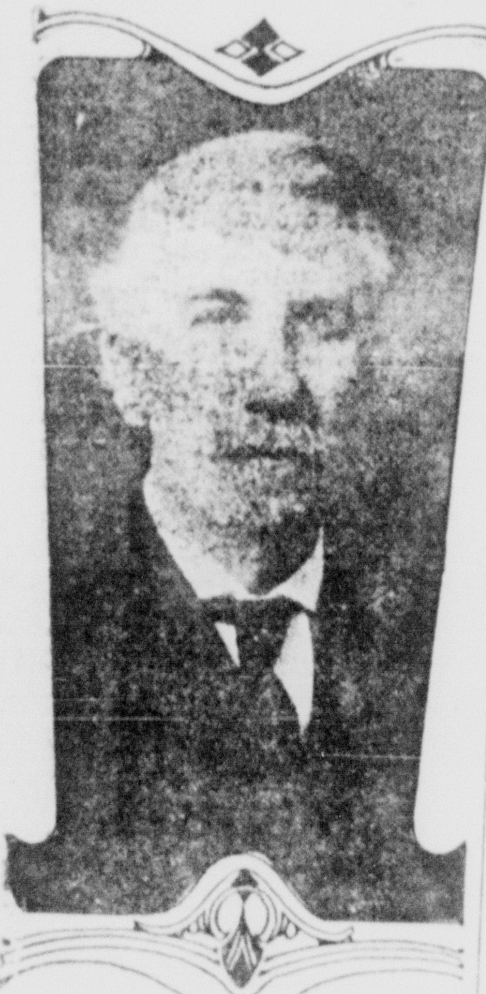

DR. STUART HAS NO
PEER AS A LECTURER

For Years This Southerner Has
Delighted Lyceum Crowds.

For years Lyceum audiences have been enthusiastic over the lectures of Dr. George R. Stuart, the great southerner, and our audience will be no exception when he appears here this season.

Sam Jones often said: "Stuart and I hunt humanity together. He goes on one side of the ditch and I on the other, and we get 'em 'twine and a-comin'." For 14 years Jones and Stuart were co-workers in the evangelistic field. Indeed, it was Jones who drew Stuart from the pastorate, and it was Jones who drew him to the lecture platform.

George R. Stuart has spoken to the greatest audiences of any preacher or lecturer who has lived in the south, except Sam Jones. During a series of lectures in Memphis, Tenn., a few years ago, every available space in the building was packed and people were trying to climb up at the windows after all the doorways were crowded. One man slipped and fell against a window, breaking the glass.

DR. GEO. R. STUART.

and slightly cutting his face. Upon being arrested by a policeman, he begged to see Mr. Stuart. When Mr. Stuart had heard the story, he said to the policeman: "Is this the first man you ever arrested in this city for breaking in to hear a preacher?" The policeman smiled and said: "Yes, Mr. Stuart said: 'Well, turn him loose for good luck.'"

At Portsmouth, O., during a series of lectures, the building that seated 2,000 was so packed with people that on entering the door at the closing lecture, Mr. Stuart was unable to get in. He managed to press down the aisle, but was unable to get further. The people seeing his dilemma broke into a laugh. "Come one from the gallery cried, 'Lift him up,' and he was lifted up. Placing his knees upon the shoulders of the men he crawled over their heads to the platform.

Dr. Stuart's record for return dates at the Chautauques is not equalled by any other lecturer looking at his fee. In the Lyceum he has an equal record, and especially during the last two seasons has the demand for lectures on Lyceum courses in the north been more than equal to the amount of time he can devote to this work. We are fortunate in having secured one of his dates.

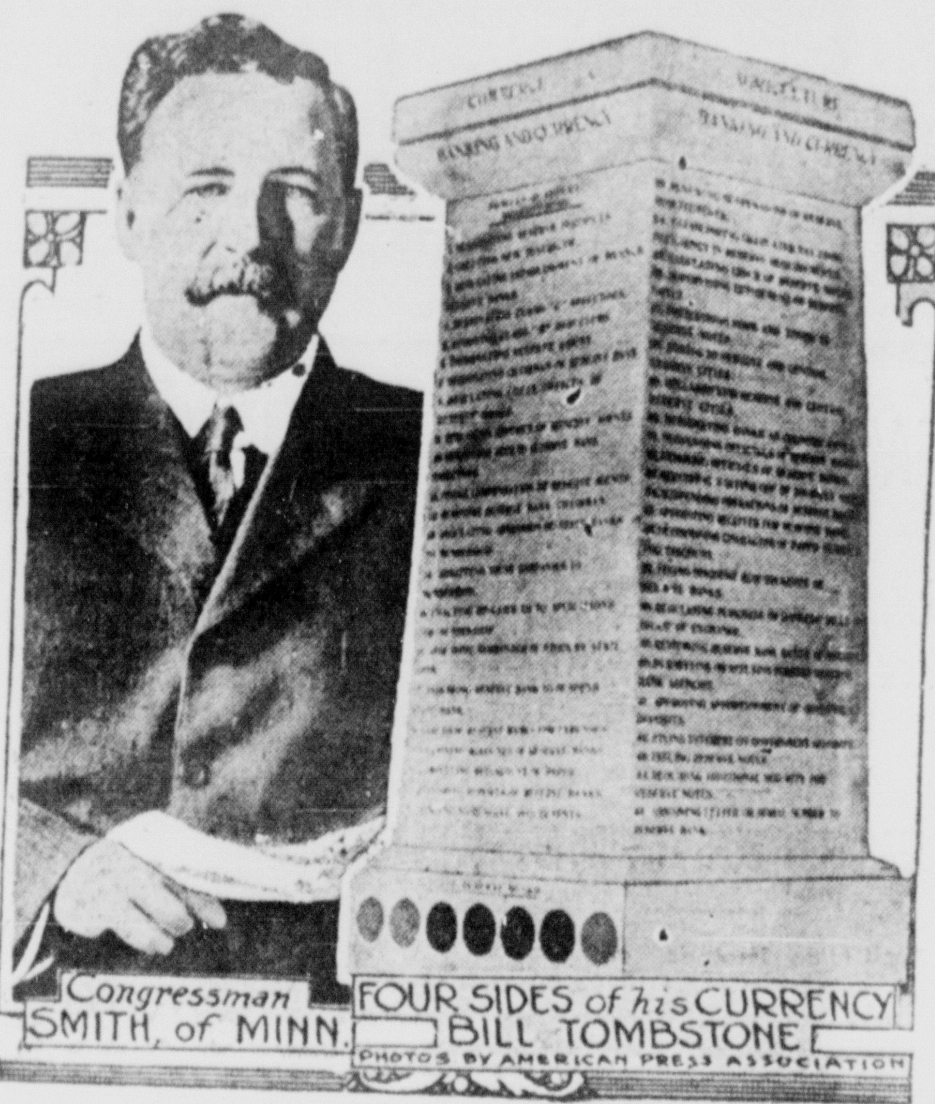

Dr. Stuart will receive a hearty welcome in this city on January 5th, as the fifth number of the Washington Lecture Course.

Minnesota Congressman Tries To Bury New Currency Bill Under Wooden Tombstone of Objections

Washington, Sept. 22.—A wooden tombstone seven feet tall and four feet square was dragged on the floor of the house recently to illustrate an argument by Representative Smith of Minnesota that the administration currency bill would put the industry, labor, agriculture and commerce of the United States under the control of four men appointed by the party in power. On the base of the monument were painted seven circles, representing the seven members of the federal reserve board proposed by the bill. Of those four, according to Mr.

Smith, the secretary of agriculture, secretary of the treasury and the comptroller of the currency, with a fourth member selected by them, would control the board. They would change, he said, with each administration and make the board a partisan political institution. On the shaft of the monument were painted sixty-nine different functions, described by Mr. Smith as the powers of the federal reserve board. While endorsing the principles of the bill, Mr. Smith opposed the placing of such large powers in the hands of the board.

WEARY WILLIES ROB TWO DEPOTS

B & O Depots at Bloomingburg and Madison Mills Entered During the Night and Express Packages Broken Open and Contents Scattered—Men Were Headed This Way.

When Agent L. D. Exline, of the B. & O. office at Bloomingburg and Agent Frank Cook of the B. & O. office at Madison Mills, entered their respective offices Wednesday morning to take up the daily work, they discovered that the office had been visited earlier in the day, and small amounts of money taken, many express packages broken into and the contents scattered about the place, and things turned topsy-turvy generally.

Both offices were entered by breaking the front windows and the men who were evidently hoboes, then proceeded to help themselves to all that was in sight that they deemed worth taking.

The men were evidently bound toward this city, as a long purse owned by Mr. Cook was carried from the Madison Mills office to the Bloomingburg office and they left in the scattered packages and papers.

Little of value was taken by the nocturnal visitors. Both offices were robbed of some pennies, not to exceed \$1, and at Bloomingburg they entered the freight room and broke open a number of packages, including a crate of coco cola, drinking five bottles, and helping themselves to a box of crackers.

That they were hungry is proven by the fact that they ate nearly a half box of crackers while consuming the liquid refreshment.

B. & O. Detectives are working on the case, it is said, and the men who committed the crimes will probably be apprehended.

It is believed they came to this city, and probably changed their journey to another railroad from the one they were following.

U. S. JUDGE IN CHINA CHARGED WITH DRAWING SALARY OFF THE JOB

JUDGE RUFUS THAYER.

Washington, Sept. 23.—George F. Curtis, a lawyer of Shanghai, brought to the house committee considering charges of misconduct in office against Rufus Thayer, judge of the United States for China, documents to show that Thayer was absent from his jurisdiction and Japan in 1909 and 1910 and during those periods certified his presence in China, which was necessary to obtain his salary.

The committee decided to examine the documents and decide whether to call Judge Thayer.

It was a long and tedious train journey, says the Glasgow News, and the other two occupants of the compartment had exhausted several other topics and were now "on" about cock-fighting. "When I was a lump o' a laddie in Blantyre," said one of them, "I had a wee bantam that could beat our bird ye could pit before him. Weet, this Sunday mornin' he bated two cocks, gin after the iber, but he wls that sair torn that to pit him oot o' pain I thrashed his neck and threw him on the midden. Then we took oot anither pair o' birds, and yin o' them crawled his challenge, when up me wee bantam staggered tae his feet, gied a cock-a-leerie-lax, and drappit doon deld aff the midden." "Ye're an awfu' man, Wully," said the other man solemnly. "Are ye no' feart ye drap doon deld yerseel?"

Five workmen were killed and several injured when a mixing house of the Dupont powder mill at Gibbstown, N. J., blew up.

YOUTHFUL THIEF FRIGHTENED AWAY

Tuesday afternoon while Mrs. John Durant of East Temple street, was busy in one of the front rooms of her home she heard a slight noise in one of the rear rooms and started to investigate. As she neared the room from whence the noise had come a dusky face was thrust from behind a door and a colored boy some 15 years of age dropped a bundle of clothing and other articles he had gathered together, and made a dash for liberty, escaping through the rear door and making his get-away.

The police were given a description of the young thief and he may be arrested at any time.

About the same time a bunch of keys was stolen from an east-end residence. Several small coins were attached to the key ring, and it is supposed that the coins attracted the attention of a boy in the neighborhood who could not resist the temptation of stealing the keys to get the money.

First Picture of Wedding of Ex-King Manuel to German Princess; Will He Rule Again?

EX-KING MANUEL and BRIDE
PHOTO BY AMERICAN PRESS ASSOCIATION

This is the first picture to reach America of the wedding of ex-King Manuel of Portugal and Princess Augustina Victoria of Hohenzollern-Sigmaringen. These two young people of royalty, but without a throne, were wedded recently near Berlin, and European royalty attended. Chief interest in the couple now centers in the renewed efforts of the royals of Portugal to reseat their former ruler upon the throne of their country. The couple are shown as they appeared leaving the church.

"Discovery." According to some wonder mongers, whenever you tell a story asserting the existence of something new and astonishing you "discover" it. But that is not the sense in which the word is used by scientific investigators. When Professor and Mme. Curie "discovered" the wonderful element "radium" they played it, so to speak, "on the table" and every one has been able to examine it and to prove that the statements made about it are true. When Dr. Laveran of Paris "discovered" that malarial fever is due to a parasite in the blood he showed the parasite and showed how one can always find it, and thus he enabled any one and every one to see it and to examine its relation to malarial fever. Those are instances of "discovery." Mere guesses and assertions without proof are not "discovery."

EMMA CRAIG, Pres. EMILY BALDWIN, Secy.

Made in Glasgow.

It was a long and tedious train journey, says the Glasgow News, and the other two occupants of the compartment had exhausted several other topics and were now "on" about cock-fighting. "When I was a lump o' a laddie in Blantyre," said one of them, "I had a wee bantam that could bate any bird ye could get before him. Weel, this Sunday mornin' he bate two cocks, yin after the ither, but he wits that sair torn that to pit him oot o' pain I thrashed his neck and threw him on the midden. Then we took oot another pair o' birds, and yin o' them crawled his challenge, when up he wee bantam staggered tae his feet, gied a cock-a-leerie-lax, and drappit doon deld aff the midden." "Ye're an awfu' man, Wully," said the other man solemnly. "Are ye no' feart ye drap doon deld yerseel?"

Five workmen were killed and several injured when a mixing house of the Dupont powder mill at Gibbstown, N. J., blew up.

YOUTHFUL THIEF FRIGHTENED AWAY

Tuesday afternoon while Mrs. John Durant of East Temple street, was busy in one of the front rooms of her home she heard a slight noise in one of the rear rooms and started to investigate. As she neared the room from whence the noise had come a dusky face was thrust from behind a door and a colored boy some 15 years of age dropped a bundle of clothing and other articles he had gathered together and made a dash for liberty, escaping through the rear door and making his get-away.

The police were given a description of the young thief and he may be arrested at any time.

HEIRONIMOUS IS RELEASED BY CUBS

Pitcher Will Valandingham Heironimus, who was signed up by the Chicago Cubs a few weeks ago, has been released and sold to the Terre Haute Federal League club, together with two other players.

Heironimus has been playing with the Wilmington Clintons all season, and when recently signed up by a representative of the Chicago Nationals, went to Chicago for a try-out.

AL DEMAREE, PITCHING FIND, WILL FIGURE FOR GIANTS IN WORLD'S SERIES

New York, Sept. 23.—Al Demaree is one of McGraw's new pitchers and is expected to give a good account of himself during the world series games between the Giants and the Athletics. Demaree has been one of the pitching finds of the season. He joined the Giants toward the end of last season, but being a new man did not take any part in the seven world's series games with the Boston Red Sox. This year he has been tried out and not found wanting. Indeed, he stands at the top of the pitchers in the league, with an average of 8.24. Up to the time this average was figured he had won fourteen games and lost three. It is certain that Demaree will get a chance to perform in the coming great struggle.

KAHANAMOKU A PRO? SPORTING DOINGS IN MANY LINES

Report Indicates Great Swimmer Will Become Money Chaser.
Reports from Honolulu indicate that Duke Kahanamoku, the world's champion amateur swimmer, is about to retire from the vale of the "illy whites" and plunge into the sea of professionalism. From news received the world famous duke is peeved. When he returned from his Olympiad victories at Stockholm he was received by the populace of Honolulu with open arms. He was lionized, worshiped and made the hero of the hour. In their enthusiasm the people of Honolulu made all sorts of promises to their native son as to what they would do for him. They promised him a beautiful house and lot at Waikiki beach and other things. Public subscriptions were taken up and the amount for the comfortable house raised easily. Suddenly just as the present was about to be made some one discovered that if the duke was presented with the house the Amateur Athletic union would professionalize him. Since that time the house has not been turned over to the speed king, and the officials are said to be waiting to see just how they can present the house to the duke and maintain his amateur status. The duke in the meantime has become restless, and he thinks he sees where his house and lot will never become his property. This is said to be only one of the few reasons for his wanting to turn professional. It is said that he can secure several matches in Australia which will bring him in thousands of dollars in money besides the prizes he could win. There are few professional speed swimmers in the world today who make a living at their sport. Down in Australia there are some, but it is expected that if the duke goes to the antipodes many of the best amateurs might be induced to turn pro, to go against the Hawaiian.

Bud Goodwin Succeeds Daniels as the "Human Pickrel."

Noted Stallion Bought by American Trainer, Will Caton—Thirty-four States and Canada Searched For Recruits by Baseball Leagues—Moran Will Probably Meet Gunboat Smith.
By TONNY CLARK.
Bud Goodwin of the New York Athletic club is the successor to Charley Daniels, the world's record holder of the same club, as the "human pickrel" of the United States. Goodwin's performances this year have been really sensational, and recently he came to a climax by winning the race for the mile championship of the metropolitan branch of the American Athletic union.

In this event, held at Sea Gate, N. Y., Goodwin defeated Palenscar, Tobias and the Danish champion Hedegard. Goodwin bids fair to become the king of American swimmers because of his tremendous strength and vitality. He is over six feet in height, with chest and shoulders in proportion.

An indication of his endurance is shown by the fact that he uses the exhausting Australian crawl stroke for longer distances than any other American aquatic expert. Other swimmers find that 100 yards of this stroke is all they can stand.

Look out for the Chicago White Sox next season. Several new players have been added recently to the White Sox roster for the coming winter by the exercise by President Comiskey of options and by outright purchase. Most notable of the lot is Russell Blackburne, the world's champion flinched infielder, who, it is just announced, will return to the Sox from Milwaukee. It was the general opinion that Blackburne was lost to the Sox when the option on him was not exercised last August and he was drafted for the Cubs. That draft subsequently was canceled, and it seems the master of the White Sox through some arrangement renewed a claim on the shortstop's services.

Blackburne has been giving a demonstration all this season with the Milwaukee team that his injured knee had recovered from the effects of the operation which kept him out of the game for an entire season. He has been fielding in his old time form and hitting consistently. Hitting is what Manager Callahan needs more than anything else, and it is likely Blackburne will get another thorough trial and be given a chance to demonstrate that he can come back.

Other players recalled for White Sox are Catcher Mayer and Pitcher Prough, from the Birmingham team. Mayer has been with the Sox before, but Prough is acquired under a blanket option. Pitcher Ralph Bell has been recalled from Winona and Pitcher W. E. Johnson (Walter) from the Racine team. Mel Wolfgang, another pitcher, has been recalled from Denver. Maggert, formerly a Mackman, has been obtained from Los Angeles, but by some arrangement will not report till spring, contrary to reports from the coast. Outfielder Roush, purchased from the Evansville club, has reported to Manager Callahan and looks like a good prospect, but may need some polishing. To offset some of these additions Don Rader, the third baseman who was taken on the eastern trip, has been sold to Lincoln.

According to the national commission's bulletin, President Murphy of the Chicago Cubs did not exercise any of the option rights he retained on players.

Manager McGraw announces that because of the strenuousness of the race morning practice has been resumed. The real fact is, it is said, he objected to his men playing golf in the mornings and thought that if they must get in action it would be better on the ball field. McGraw believes golf a bad thing for a players' arm.
